

MIKE BICKLE, THY NAME IS MUD

Eleven Years of Prophetic, Intercessory Dreams I have had

Concerning Mike Bickle from 2011 to 2022

(Miner Perkins – April 16, 2024)

I do not know Mike Bickle personally and I have never met him. I have never been to IHOP or to any of its affiliate organizations and buildings in Kansas City or any other city. The first of my family's involvement with IHOP came in 2001 when my Dad and a group of his friends got together to travel to the IHOP Prayer Room in Kansas City when the Prayer Room was in transition in the move from the trailers on Grandview Road to the newly purchased building within Kansas City itself. They were interested in setting up a 24/7 worship and prayer room in Casper, Wyoming where we lived, and they went to Kansas City with the intent of studying and learning about 24/7 prayer and worship to set up an IHOP type of place in Casper. That same year IHOP sent a worship team led by Chris DuPre to Casper to show the example of the Harp and Bowl system that Mike Bickle created, while my Dad and his friends continued to work with IHOP that year to try to get an IHOP started in Casper. My parents and their friends had already been involved in starting and participating in dedicated Prayer Rooms at the churches they went to for over 15 years before any of them had heard of Mike Bickle. They would often have all night prayer watches to pray all night long together. My parents had gotten very involved in prayer and intercession from my Mom's side of the family going back generations in the Church of God (Anderson, Indiana based), such as my great-great-great grandma Mary Elizabeth Heldenbrand and my great-grandma Raye Slater, spending time in continuous prayer throughout their daily lives. Raye would meet with the women of her church for all day prayer gatherings (packing their lunches and dinners and taking the kids to spend the whole day praying at church).

My family had already been interested in serious prayer as part of a family calling go back at least 100 years in the family at that point, so my family had already been very involved in prayer long before hearing about Mike Bickle and IHOP. Thus the idea of having a place open 24/7 to gather for prayer and intercession at any time in the day or night was an exciting idea for my parents and their friends who had already been involved with wanting places to gather for prayer at any time, day or night, without restrictions. Later in January 2002 my Dad and his friends went back to Kansas City again to take part in the first Onething Conference, and that was the end of my Dad's involvement with IHOP as he worked on other things afterward. Some of his friends went on to continue trying to get an IHOP started in Casper and they succeeded to some extent years later. But during that year when my Dad was involved they would have only informally met Mike Bickle during the trips to Kansas City. My family all met Chris DuPre when he came to Casper, which I still remember now even though I was still a kid in my late teens at the time.

That was the extent of my family's involvement with IHOP, and at the time we did not pay much attention to Mike Bickle except as a side note in his involvement of starting IHOP. The focus was all on the 24/7 prayer and worship and the musicians and singers involved. We must have hardly focused on Bob Jones either,

because I do not have any memories of hearing about Bob Jones at that time. And the only reason that we listened to Paul Cain a little bit at that time was because my parents had already been watching Paul Cain and Jack Deere on TBN for years in the 1990's before that. By 2003 to 2004 my family was too busy with crises and we lost touch with everything with IHOP, not listening to or paying attention to any of the people or anything going on there for nearly 10 years. During those years we were mostly isolated from IHOP and not thinking about the place or the people, except for the occasional things that might come up on Christian television about them. That is how it would have continued forever if YHWH had not pulled my family back in again beginning with the first dream that I ever had of Mike Bickle in 2011.

I actually never planned on sharing any of these dreams that I have had about Mike Bickle and for most of the dreams I did not write down any dates, which is why I was only able to write down an approximate time frame for some of the dreams. These dreams have been a big blessing from YHWH for me and my family in providing YHWH's perspective and discernment about Mike Bickle, which is the only reason that I finally decided to share these dreams publicly. Up till now I have only ever shared these dreams with my family, and even now it is a wrestle and struggle I have had with YHWH about how much he wants me to share or not share. I am just sharing everything that has to do with Mike Bickle and IHOP. I believe that they will be a benefit for those who are needing and wanting YHWH's discernment and understanding about what is happening right now and will be continuing to happen. So I have tried to faithfully write out the dreams exactly as they happened in every detail I could, without including any interpretation within the dream itself. Then after each dream I have included a separate section of explanations and interpretations, though very little interpretation is needed for the dreams, because many parts of the dreams are very literal, and the other parts of the dreams YHWH uses symbolisms that are very obvious. There are many saying that YHWH did not give any prophetic warnings ahead of time about Mike Bickle, which is not true as will be seen in the dreams, and I am sure that I am not the only one who had such warnings.

Also, there is no way to make the writing of these dreams short, because there are over a dozen dreams that I have had about Mike Bickle and IHOP, almost every one of them included here. It took over 10 years for YHWH to give me all of these dreams, so if you decide you want to read all of these dreams it is going to take a little while.

For those who might ask why I did not reveal these dreams sooner, the dreams themselves will answer that question, as YHWH included warnings to me in the dreams about how dangerous Mike Bickle is, and also about how YHWH would already be taking Mike Bickle down himself without me having to do anything at all except to stand with YHWH in intercession that his will be done. And the prayers worked, because I only prayed for YHWH's will to be done with Mike Bickle, which YHWH was already going to do anyways. But he likes to have us learn his will and come to know him in his will, standing with him. This is why he prophetically reveals his will to us at times in things like dreams and visions, so that we can stand with him in intercession in what he is doing, and then know that when the thing has happened that we have been praying for together with him, we know that he did it and it is his will that it is done. What an awesome thing it is to see YHWH at work, doing his will.

Explanation About the Title

(This Section is Skippable for Those Who Want to Continue to the Dreams)

The title of this blogish type of open letter sort of writing, “Mike Bickle, Thy Name is Mud,” is in reference to what YHWH is doing and will be doing to everyone with “a name.” In Hebrew writing and culture when referring to someone having “a name” it means that they are famous. In Genesis 6:4 the Nephilim or Fallen Ones were known as the strong or mighty men “of name.” This means that they were famous and were fame seekers wanting people to know them and pay attention to them as important. Already at the very beginning of creation shortly after the fall of the man and the woman in the garden there were men of name, the Nephilim, trying to get people to focus on them instead of on YHWH and his “Name” or “Renown.” In Genesis 11:4 the primary reason why the people wanted to build the city of Babel was so that they could “make a name for ourselves.” They wanted to be famous and have all of the focus of people drawn toward them instead of to YHWH. This is one of the foundational reasons for building a city, and it is one of the foundations of what Mystery Babel is all about in Revelation 17, in order to create a system in which people can become famous and draw all of the attention and worship of other people toward them, away from YHWH. The whore of Mystery Babel, the system of the city of Babel, is what happens when people want to make a name for themselves, to become famous and have other people idolize and worship them as gods. It turns into prostitution when men or women are idolized and elevated to a place of worship by others, as it removes YHWH from everyone’s lives to worship other things in place of him.

Today the city of Mystery Babel is finished and completed, with the global, virtual city of the internet, connecting every man and woman and child on the earth into one, single city of people, where everyone can “make a name” for themselves like those who built the city and tower of Babel after the flood. The city and tower of Babel is back again right under everyone’s noses, enticing everyone to come into the city and make a name for themselves, to become famous. The global city of the internet, for those who misuse it, is now the epitome of what man and woman have always wanted and tried to get when they built the city of Babel in the beginning, where everyone has an opportunity to become famous and make a name. The culture now today is more extreme than it has ever been with this issue, and it is rampant across Christianity as well, with leaders getting in on Mystery Babel, trying to become famous and make a name for themselves.

This is not about just being well known or having a name that is known to lots of people. David fought Goliath in the name of YHWH, not in his own name, giving YHWH all of the esteem and renown for his name as YHWH defeated Goliath miraculously. The name of David became well known and famous down through history, but David did not use his name to draw people to him to worship him, and take their attention away from YHWH. Unfortunately his son Solomon did the exact opposite with his name of fame, bringing the worship and focus towards himself and towards the false gods of the nations, as Israel turned away from YHWH under his rule. This is talking about having a name of fame that draws the worship of people toward men and women to raise them up into gods on a pedestal. This had been around for thousands of years, but now it is more extreme than ever with the global, virtual city of Mystery Babel and the culture available to empower people to become famous in ways that they never dreamed of in the past. It is one of the big deceptions today that people think that in order to be of any value as a person they have to become famous with a name.

The problem of the worship of men and women as gods in Christianity, worshipping men and women of name who are famous in Christianity, began right away in the Early Church days. In 1 Corinthians 1:12 and 3:4 we can see that there are early believers in Yeshua already wanting to follow men instead of Yeshua, setting up men in authority instead of Yeshua, already going down the slippery slope of worshipping men of fame, men of name. Some were saying that they followed Paul, others that they followed Apollos, and others that they followed Kephas, which is the original Hebrew/Aramaic name of Peter.

By the early 2nd century we can see that the worshipping of Bishops and Pastors and those in spiritual authority as gods who were famous with a name in Christianity had already begun to some extent. One of the early Church Fathers, Ignatius, wrote in the early 2nd century in his Epistle to the Ephesians, “Let us take heed therefore, that we do not set ourselves against the bishop, that we may be subject to God. The more any one sees his bishop silent, the more let him revere him. For whomsoever the master of the house sends to be over his own household, we ought in like manner to receive him, as we would do him that sent him. It is therefore evident that we ought to look upon the bishop, even as we would do upon the Lord himself.” [Translation from *The Lost Books of the Bible* (1926), pg. 168] There is nowhere in Scripture that teaches such things as Ignatius taught, but the Early Church in their earliest writings even before many of the apostles had died were already beginning to stray far away from Scripture in their practice of Christianity, as can be seen by the warnings in the letters of Paul and Peter and John and Jacob (James).

In the Greek use of the word for “Lord” here, it is unclear if Ignatius is writing “Lord” to mean “Master” referring to Yeshua, or if he is using the word “Lord” in place of the name of YHWH, but either way he is saying to look upon the bishop the same way as one would look upon YHWH or Yeshua himself, God himself. He is clearly saying to look upon the bishop, the one in spiritual authority, as God. Ignatius is saying that if you look upon God with worship, then you must also look upon the bishop with worship, and if you look upon God as the ultimate authority over your life you must also look upon the bishop as the one with ultimate and total authority and power over you. He is saying that those in spiritual authority in the Church are sent by God himself to rule over the church and are to be treated as though they are God himself standing before you, showing that at the time of Ignatius the door was already opening to the worship of men and women as gods in the Church. It did not take long before the concept of sainthood came into the Church, into the Catholic and early Orthodox denominations, raising up famous men and women, men and women of name, into the positions of Saints who are lesser gods to be prayed to and worshipped in place of YHWH. This problem of worshipping men and women in Christianity has always been around, but now it has grown to extremes with the technology available. And this is why when Yeshua returns he has to bring down everyone with a name, everyone who is famous in such a way that it turns everyone’s focus to that person instead of to the name of YHWH, to the fame and renown of YHWH. He has to bring down the people of name, turning their name and fame into mud.

Foundational Beginning Dream

Almost 10 years after my family's involvement with IHOP had ended I had the first dream I ever had with Mike Bickle in it in 2011. I was surprised at the time and could not understand why I would be dreaming about Mike Bickle, since I had never really watched him or listened to him or read any of his teachings. My family had been completely out of the loop with IHOP not keeping up with anything going on there for so many years it was very surprising to suddenly have a dream that had Mike Bickle in it. There were also two other ministry leaders in the same dream who I will not give their names at this point because this writing is focused on just the dreams about Mike Bickle and IHOP, and also because it would not be fair to the other two men in the dream to release their names without writing out the couple dozen dreams I have had about both of them since 2011 and before.

1. Dream 1: (2011) – This dream began with a man who is the leader and founder of his own Christian ministry, who we will call Ministry Leader 1. I was at the place of ministry that this Ministry Leader 1 ran his ministry from. He was with a group of people who worked for him in his ministry in a front reception room of the ministry and he was telling the people who worked for him that they were going to have to start downsizing and cutting back the ministry for financial reasons, because of not having enough money coming into the ministry. And he was talking about having to possibly shut down at least part of the ministry. And then in the dream I was so excited and happy about the news (even though everyone there looked sad), and I began telling this Ministry Leader 1 what good news this is, because YHWH is wanting him to shut down his ministry and stop doing ministry. This was the word from YHWH that I spoke to this Ministry Leader 1 in the dream that it is a good thing that he is downsizing his ministry, because YHWH is the one who is shutting down his ministry to benefit him as a good thing for his life. [See the later Explanatory Section for this “Dream 1” to see the verses in Scripture that give the deeper understanding about this strange part of the dream of having joy about shutting down ministry and what that actually means in the context of prophecy in Matthew 25, Ezekiel 34, and Zechariah 10, together with John 3:29-30.] In the dream I was under the misapprehension that this Ministry Leader 1 was listening to YHWH and was starting to downsize his ministry in obedience to YHWH and I was very happy about this, until after I started telling him what a wonderful thing it was that he was shutting down his ministry in obedience to YHWH. But the entire time I was talking this Ministry Leader 1 ignored me as though I did not exist, and never once responded to me. He never once looked at me or acknowledged I was there and then continued on as though I had not spoken a single word. That is when I knew that he was only downsizing his ministry because he had to financially, and did not want to shut down his ministry or to listen to or obey the word of YHWH to shut down and stop doing his ministry. So I left the building sad. [A note on this Ministry Leader 1 is that he is in no way even remotely connected with the Charismatic and Pentecostal movements in Christianity and his ministry is run in the traditional non-profit organization way.]

Then the dream switched to our family dog Olarani playing happily together with another dog Sophie who had belonged to our friend. The friend had moved away, taking Sophie with her, causing Olarani and Sophie to

be separated for many years. In the dream the two of them were back together again like in the old days before they were separated.

After this I was at the building of a second man who is the founder and leader of his own ministry, except that this time it is a for profit business type of ministry positioned more in the secular world. This Ministry Leader 2 was, once again like the first, inside of his ministry building, speaking to his workers telling them the same thing as before, that they would have to start downsizing and cutting back on the ministry for financial reasons. And once again I opened my mouth without thinking, telling this Ministry Leader 2 how exciting and good this was that he was cutting back and starting to shut down his ministry in obedience to YHWH, because this is what YHWH is wanting everyone in ministry to do, to leave ministry and shut down their ministries. Once again I was under the same misapprehension that this Ministry Leader 2 was listening to YHWH and obeying him, until after I was talking and realized that this Ministry Leader 2 was getting really angry at what I was saying, not wanting to believe at all that shutting down his ministry was a good thing that YHWH was actually wanting and causing to happen. This Ministry Leader 2 also completely rejected this good word from YHWH to shut down his ministry and permanently stop all ministry. Then this Ministry Leader 2 without a word walked over to me and picked me up, carried me outside through the door and set me next to the dumpsters in the alley, throwing that word from YHWH out with the trash. [This Ministry Leader 2 is also not in any way remotely connected with the Charismatic and Pentecostal movements.]

The dream then switched to the building where I live, and a friend of ours from Africa who had lived with us for a while during her time at college was there, married with a husband. The last time we had been in contact with her and seen her she was not married, nor did she have any relationships at that time, but in the dream she was married. And then in the upstairs of our building/house I saw plants being grown with grow lights. There was nothing special about the plants or the grow lights, just seeing plants grown inside with grow lights.

After this I was sitting on a chair in an office somewhere in another building. I did not know at first where I was until later I found out that it was another ministry building (namely IHOP). And I was sitting talking to a man I had never met before, whose face I did not recognize. This man really liked what I was talking about and said that he had to go get someone else who needed to hear this. The man rushed out of the room and back into the room, bringing two men with him, one being a second man I did not know or recognize and the other being Mike Bickle. Mike Bickle stood there looking at me sitting in the chair with the other two men on either side of him, one on his left and the other on his right, all of them looking toward me to listen to what I had to say. And I repeated what I had told to the first man at the beginning, telling them about Corrie Ten Boom's experience in the Nazi concentration camp. And I explained a very simple concept to them that if you were to go through a concentration camp experience like what Corrie Ten Boom went through, anything that is not still relevant on the other side of that experience after being released again out of the camp, anything that does not stay relevant anymore to continue practicing or believing after being in a Nazi concentration camp, needs to be thrown out and not continued anymore. [Anyone who has read *The Hiding Place* and Corrie's experience of finding out that there is no place in all existence where God is not there, even in the most evil and darkest places will understand this more quickly. "There is no pit so deep that God's love is not deeper still."] As I was saying this to Mike Bickle about anything (any belief or practice) that does not still have value or is no longer worth

doing after going through a Nazi concentration camp experience like what Corrie Ten Boom went through needs to be thrown out at the end of that experience, Mike Bickle became enraged in his face with an intense anger and lunged toward me to attack me. And as I woke up from the dream he had his hands around my throat choking me to death.

Dream 1: (Additional Explanatory and Understanding) – There are several important context notes to provide for this dream. At the time that I had this dream Olarani and Sophie had been separated for about 6 years, but the part in the dream where they were together again like in the old days was fulfilled literally in less than a year in 2012, when Sophie's owner made a surprise and unexpected move to live in the same town with us, and gave us Sophie to live with us and take care of her. So Olarani and Sophie were reunited literally in real life just as YHWH had shown it would happen in the dream, and they stayed together for the rest of their lives until their deaths. The friend from Africa, at the time of the dream we had not had contact with for about 6 years, and when we last knew her she was not married nor was in any serious relationship for marriage. Within the next couple years after the dream we found out that she was married and that part of the dream was also confirmed to be true. Then within a couple years of finding out that the friend was married, we had to literally make a room in our upstairs for me to have clean, filtered air because of my health not being able to handle the local pollution. And as a part of this room we had to set up some air cleaning plants to help clean the air and provide oxygen, set up with grow lights, once again literally fulfilling that part of the dream.

Each of these three things in the dream happened literally in real life, so that I would know that the other three parts of the dream of each of the three men in ministry (including Mike Bickle) were also happening literally in their hearts. YHWH is actually telling each of the three of them to shut down their ministries and quit ministry forever, and each one is fighting against him and trying to stay in ministry against his will in real life. But at the same time YHWH was showing in the dream that with these three men he is showing the prophetic symbol in their lives of what YHWH is doing with every man and woman in ministry on the entire earth, and the ways that each of them are resisting YHWH, some by ignoring his word to them to stop ministry, some by throwing out his word in the trash to stop ministry, and others, like Mike Bickle, attacking and trying to kill the word that YHWH is saying to them to stop ministry.

This leads to another important context to this dream, going back to 2003 when YHWH told me to not have a ministry or do a ministry because he would be putting an end to ministry. [No one needs a ministry to be able to live a life of walking with and obeying YHWH daily, and sharing fellowship and words and teachings with one another as equal sheep following only one shepherd, Yeshua.] I have always been thankful that YHWH helped at that early age to not get into ministry, because it has saved my life through the years in many different ways, but it also started a long process of many years of YHWH piece by piece helping me to understand just exactly what he was talking about that he would be ending all ministry. This dream in 2011 was another stage of this process of learning just how serious YHWH is about ending all ministry, and that it is a good thing that he is doing that everyone should be rejoicing about, but instead are turning into a time of sadness because of fighting so hard against YHWH to stay in ministry. Of the three men in ministry in the dream, Mike Bickle is now the second one who YHWH has removed out of ministry. The Ministry Leader 1 in the dream YHWH has

also been removed out of ministry with a very strong hand, but not through scandal, like with Mike Bickle. Instead YHWH has totally broken his health so that he is physically and mentally unable to continue, and even now he is still fighting to get back into ministry again. And all three of the ministries in the dream (including IHOP) since 2011 have had times of having to cut back financially and have had difficulties keeping their ministries going (especially the first two ministries in the dream) exactly as shown in the dream.

The reason for the Ministry Leaders 1 and 2 in the dream to leave ministry has nothing to do with hidden sin or unrighteousness as with Mike Bickle; the reason is simply that it is time for them to leave ministry because it is a joyous thing that YHWH wants for them. But YHWH shows in the dream they are going to fight hard against him to stay in ministry, and that Mike Bickle is going to fight the hardest of all of them to get back into ministry and stay in ministry, while YHWH will be fighting hard against him to remove him and keep him out. It took me many years for me to understand why Mike Bickle would be so angry at the concept in the dream about Corrie Ten Boom and the Nazi concentration camp. The concept is a basic principle in Scripture of YHWH's refining, summed up very nicely in Isaiah 48:10 where YHWH talks about refining his people, but not as silver. Instead he puts his people through the trials of the furnace of affliction and refines out the deceptions and lies and the things that have no foundation, making use pure and clean, and the Nazi concentration camp is a perfect example of a furnace of affliction that Corrie Ten Boom and her sister Betsy went through. Revelation 7 also shows this same concept of all those who are being given clean, white robes, washed in the blood of the Lamb. And the reason that they have these clean, white wedding robes of righteousness is because they went through the Great Tribulation or Great Trouble, the furnace of affliction, that refined them and got them clean in the blood of the Lamb.

I finally understood that the reason Mike Bickle in the dream was so angry at the word I was speaking to him about Corrie Ten Boom is that if YHWH were to take Mike Bickle's ministry and teachings and life through the refining of a furnace of affliction like what millions of people experienced going through in a Nazi death camp, that there would be almost nothing left of his ministry or legacy that would survive it and remain relevant afterwards. Only the true, living God YHWH is able to get a person through the kind of refining affliction of a Nazi death camp experience. That experience of affliction exposes those who have created a manmade religion and changed Yeshua into a different Yeshua (2 Corinthians 11:4), into a false version of Yeshua that is a false god of their imagination like an imaginary Santa Claus god. They will leave their faith very quickly when the false god of their imagination does not save them and is unable to help them in any way through the trials of affliction. Anything that is false or any deceptions a person has believed in are no longer relevant on the other side of a Nazi death camp experience, but those things that are true, those things that are the real, living YHWH, continue on and survive the refining of affliction. This is evidenced in Corrie Ten Boom's life as she became closer to Yeshua after the experience and he became even more relevant in her life to continue on with him deeper than before. Mike Bickle in the dream represents the category of people in ministry who, when YHWH shuts down their ministries and removes them from ministry, most or all of their personal ministry and legacy do not survive through the refining to still be relevant on the other side of the refining, and has to be thrown out.

Dream 1: Additional Context for Those Who Want to Read the Scripture Verses Associated with this Dream (Can be Skipped for Those Who Want to Only Focus on Mike Bickle and IHOP and Want to Move on to the Rest of the Dreams): Another piece of context to include here is the understanding about what YHWH really means about ending all ministry, and the answer lies in Ezekiel 34, Zechariah 10, and Matthew 25:31-46. Ezekiel 34 and Zechariah 10 are among two of the most ignored Messianic, End Time prophecies of Yeshua's return in all of Scripture. Yeshua even links the prophetic parable he speaks in Matthew 25 with the prophetic parable of Ezekiel 34 and says that he is the David in Ezekiel 34 who will reign over Israel and the nations at his return as the Son of Adam. Most ignore the shepherds part of Ezekiel 34 as a prophecy that was about Ezekiel's day and about the shepherds of Israel during his lifetime, but Yeshua is saying in Matthew 25 that this prophecy in Ezekiel 34 of the sheep and the goats and the separating of the sheep and the separating of the goats is a prophecy of his return. And YHWH clearly says in the prophecy that there will be only one shepherd, his servant David (the Messiah Yeshua), and all other shepherds will be judged and removed at the time of his coming to rule over Israel. It does not matter how anyone wants to interpret this prophecy, the prophecy says there is only one shepherd at Yeshua's return and that is Yeshua. This prophecy about the shepherds is for his return, when all other shepherds, all those in positions of spiritual authority or leadership such as pastors, deacons, bishops, priests, popes, archbishops, fathers, mothers, ministers, rabbis etc. will be removed by YHWH from their positions, many of them in judgment for devouring the sheep, so that there is only one shepherd left standing in the end.

At the same time Yeshua reveals in Matthew 25 that when he is removing all of the shepherds and ending all ministry, the ending of ministry does not mean that we stop helping those in need, as listed in the examples in Matthew 25. We do not stop giving food to the hungry and water to the thirsty and taking in strangers and clothing the naked and visiting the sick and those in prison. These things can be done by any individual on their own or group of individuals together in their daily lives without having a "ministry" or religious position of authority as a shepherd to do it.

YHWH has already revealed his goal for the time of his return, to remove every shepherd until his one shepherd is the only shepherd left standing, his servant David the Messiah Yeshua. This prophecy is not only about Jewish Rabbis being removed and judged, but also every shepherd on earth so that there is only one shepherd left. The goal is for there to be no more shepherds left at all in Christianity when he comes, and in Zechariah 10 the prophecy reveals that this is one of the major parts of the latter rain outpouring of YHWH's Spirit on all flesh. When YHWH pours out the rain of his Spirit at the time of the Latter Rain, the biggest sign of this latter rain revival is that YHWH judges the shepherds and removes them all from ministry. In Zechariah 10 the prophecy is specifically referring to the Jewish rabbis of the tribe and nation of Judah, but Ezekiel 34 reveals that at the same time, as part of the latter rain outpouring of YHWH's Spirit, he is also judging and removing all of the shepherds of the entire earth, including every shepherd and every ministry in Christianity at the same time as the rabbis in Judaism. Everyone is praying for and wanting the latter rain outpouring of YHWH's Spirit all of the time, but no one really realized what they were asking for, when they were praying for the rain of YHWH at the time of the latter rain. This judgment and removing of all of the shepherds in

preparation for the one and only shepherd to come is one of the biggest and most important parts of the latter rain.

And it is supposed to be a joyous thing to be like John the Immerser in John 3:29-30, as all of the spiritual and religious leaders, and all those in ministry, decrease and step aside for the Messiah Yeshua, the bridegroom, to have his bride. All of the shepherds in ministry should be rejoicing that they get to remove themselves from ministry to make way for the one and only shepherd and bridegroom of the bride, instead of turning this time into a time of mourning, of trying to hold onto their ministries. I have watched as ministry leaders, as the shepherds, have held onto their ministries like idols and gods, unwilling to give them up for anything, even for YHWH. This is part of what YHWH is also exposing at this time, that Christian ministries have become idols and false gods in themselves that people are not willing to give up and stop for anything, even if YHWH asks them to stop. The ministries are like an addiction where a person gets all of their feeling of self-worth and importance from the ministry that they are doing instead of from the love of YHWH for them in who he created them to be. It is as though people have no relationship with YHWH outside of their ministry in their daily lives, completely unable to interact with him and do things with him outside of their ministry.

And this leads to the last important piece of context with this dream in the warning of Yeshua in the parable of Matthew 22 and Luke 14 where Yeshua warns that at his coming we have to stop everything we are doing, even ministry, to get ready for the wedding. The man at the wedding who did not have his wedding clothes was thrown out, because he did not take the time to get ready and prepared for the wedding. It takes time to get dressed and ready for a wedding, which means we have to stop everything we are doing when the invitation comes to just focus on getting prepared for the bridegroom. In Revelation 19 the bride has prepared herself for the wedding, with the wedding clothes of righteousness. It takes a while as the bride to get the wedding clothes on ahead of time before the bridegroom, Yeshua, comes, which means stopping all of the things in the world to get cleaned up and totally spotless in Yeshua's blood, to be ready for him before he has arrived.

In Matthew 24 over and over again Yeshua says to watch for his coming in order to be prepared for his coming ahead of time before he has come. If it were possible to always be ready for his coming all of the time, then there would be no reason to watch for his coming. He would instead have said to be ready for his coming at all times so that there is no reason to watch for his coming. His warning is that we have to watch for his coming, because we can only prepare for his coming right before he comes. It is because Yeshua is warning that we have to stop everything that we are doing, especially the distraction of ministry, in order to be ready when he arrives and not be thrown out of the wedding for not being cleaned up and ready for his coming, ready with our extra oil for the delay of his coming. Yeshua warns that a person does not want to be busy doing ministry at the moment when he comes, because his coming will be as a surprise, as a thief in the night. The person will have been so busy doing ministry, the ministry of their field they are working in Matthew 22, that they will not have gotten dressed in their wedding clothes and might even refuse to go to the wedding, because keeping their ministry going is more important to them than eternal life with YHWH. No one gets to take their ministry with them into eternal life; every ministry has to be left behind with everything else of this world as it is burned away in fire. Yeshua warns about this in Luke 17:28-33 to be ready at his return to leave everything of this world behind like Lot and his family fleeing Sodom, and this includes leaving behind every ministry.

At the moment that Yeshua returns, he instructs us to be getting ready for his return, by dressing in our clean, white wedding clothes of righteousness washed in his blood, not to be running a ministry. When YHWH told the children of Israel to get ready for his coming in the clouds at Mount Sinai at the sounding of the shophar (trumpet) with lightning and thunder in Exodus 19, he did not tell them to make sure they are all doing ministry at the moment of his coming. He told them to stop everything they are doing, including not even letting the men go near their wives, to spend all of their time getting ready for his coming, by cleaning their clothes making them perfectly white and spotless, then getting dressed in those perfect, spotless, white wedding clothes, as the bride who prepared herself for his coming in the clouds.

Subsequent Dreams About Mike Bickle and IHOP Over the Next Ten Years

After the first dream in 2011 YHWH began showing my family about Kansas City and getting reconnected with IHOP in some way, through different things that happened. At one point on a road trip my family was trying to drive north, back into the city of Omaha, when they suddenly saw a giant road sign in front of them that said they were going to Kansas City, headed in the opposite direction to the south of where they were trying to go. Eventually in 2013 we finally understood that it was the IHOP 24/7 livestream that YHWH was wanting us to watch, which we did not know was available online until that time.

This started a time of YHWH having my family intercede for the people at IHOP, beginning with watching the livestream almost continually during 2013 to 2015. We were watching still watching regularly from 2016 to 2018, but not as often, then from 2019 to the present we would only check in on IHOP every once in a while when YHWH would prompt us, but otherwise were not really watching at all since 2019. It was during this time of interceding for the people at IHOP that we began to see real problems that we could not always understand, and I started having lots of dreams about Mike Bickle and IHOP as part of the intercession for what YHWH was wanting to do with the situation at IHOP.

The things that YHWH began exposing and revealing in the dreams I was having should be self-explanatory about the problems and very serious issues going on at IHOP. I will just briefly mention here that with the dreams, together with what we were watching in the Prayer Room so constantly for so many years YHWH began to reveal that Mike Bickle and some of the leadership were the core problem that all of the problems came back to and centered around, especially Mike Bickle. It was also in 2013 that we really started listening to Mike Bickle for the first time, actually taking time to listen to what he was saying, and so we began to see lots of major warning signals that we had not known about before. One of these warnings was the way that Mike Bickle would tell everyone the way that they needed to feel and believe inside about what he was about to say before he had even said it, which is a major alarm warning sign of control manipulation. Other warning flags were learning that everyone in the leadership were required to believe exactly the same way as clones all believing Mike Bickle's interpretation of End Time prophecy teachings, with a total prohibition of any leadership being able to think for themselves. There were many warning signs like these that indicated something was wrong spiritually in Mike Bickle's life, and that something bad was happening to the people in IHOP, which is when YHWH started giving me all of the following dreams beginning in about 2013.

2. Dream 2: (About 2013 to 2015) – This dream began with a group of musicians that I found out in the dream was one of the worship teams at IHOP waiting in a back room for their turn to go on stage at the Prayer Room. Mike Bickle was at the doorway of the room talking to them, and from the conversation I learned that they were one of the worship teams for the night time shift. Mike Bickle had stopped to talk to them for a moment at the door on his way home for the night. Then after Mike Bickle had left down the hallway, I was shocked to see this worship team pull out books, magazines, movies, and video games filled with every kind of evil and sin imaginable, including every kind of sexual immorality, blatant Satanic witchcraft, glorification of murder and gore, etc. Thankfully that was the end of the dream and I woke up without having to see all of the different kinds of sin for very long. But as soon as Mike Bickle left the room, the people themselves in the dream also transformed, their clothing changing instantly into very dark clothing together with completely different countenances on their faces. They no longer had the innocent looks on their faces as when they were talking with Mike Bickle, but had changed to dark looks on their faces as they were totally focused on loving the sin that they were enjoying.

Dream 2: (Additional Explanatory and Understanding) – The understanding of this dream should be obvious, but this was the first dream where YHWH began to show my family that there is a lot of hidden sin that needs to be dealt with at IHOP. This was revealing that there is hidden sin at the Prayer Room, and the central focus of that sin has been during the night watch time frame, with at least some of the night watch worship teams. In this dream the extent of Mike Bickle’s involvement was not yet revealed.

3. Dream 3: (About 2013 to 2015) – At the beginning of this dream I knew that I was in a college or school of some sort, and I knew that I was a new student at this college trying to find my way to class. But the building did not look like a traditional college, it looked more like a modern large church or mega church with lots of different Sunday School rooms and conference rooms for church events and gatherings with no windows to the outside. In the dream I was completely lost trying to find my way to class through a maze of hallways and rooms. There were a few other college students around in the hallways, but not many people were around. One of the doors I tried opened up into a cafeteria style kitchen that would be the type of kitchen for serving large numbers of people. But to my horror in the dream I saw on the food preparation tables and counters, and hanging from hooks all around the room, there were chopped up human body parts in large piles all over the place covering the kitchen. There was no one there in the kitchen, but the kitchen was filled with these chopped up human body parts everywhere I turned. I knew at that moment that I had accidentally stumbled across something that I knew that I was not supposed to see or know about, and I knew that my life was in danger if I stayed in whatever college place this was.

That is when I left the kitchen and began going through the maze of hallways trying to find a way out of the building. It was some time of walking quickly through the hallways trying to get out, and it was during this

time that I then found a classroom that had an interior window on the wall of the classroom/conference room, the window looking into the hallway. The door of the classroom was closed and appeared to be locked, and the lights were off inside of the room, the room being completely dark. Only the light of the hallway was shining somewhat through the window into the room, and this is when I saw another horrific sight as there were young students in the room whose skin had turned to a green color and they looked like they were being transformed into zombie like creatures. I saw an old movie projector in the room showing a movie very dimly against the back wall in the midst of the darkness of the room, that the students in the room were forced to have to watch. I did not see what was on the movie. I remember seeing a few students clawing at the window of the room desperately trying to get out, trying to escape from what was being done to them.

I was really determined at this point to get out of this building, and it was while I was hurrying to try to find a way out through the hallways again that I came across another room that this time had the door sitting open. Inside the room I could see bunkbeds and young students laying in the beds. The room was dark with the lights off for sleep, but this time there was a window with the blinds closed by which I could see somewhat in the room from a little bit of outside light coming into the room around the blinds. And this time I saw Stuart Greaves and David Sliker and a third man I did not recognize playing calm music on an old cassette tape and radio combination type of player that was sitting on a side table by one of the beds. Then I watched as different students laying in the bunk beds would try to wake up and get up out of bed and then Stuart Greaves or David Sliker or the other man would go over to the bed, push the student back down into the bed, and read Bible verses to them right out of Scripture, putting them into a trance using the Bible verses and the music together and telling them to go back to sleep. I watched as the students would try desperately to wake up, only to be pushed back down again and put back into their sleep trance by Stuart Greaves and David Sliker and the third man I did not know, using Bible verses and music to keep them asleep in their trance.

This is when I knew that I was at IHOP (at the IHOP University or Forerunner School) and I was really determined to get out of this place, but I still felt very calm throughout the whole dream, never panicked. I just knew that my life was in danger and I had to get out. This is when I finally found some double door exit doors that I rushed out of and found myself on the outside of the building at last, in what looked like a loading and unloading dock area for shipments to be received. There were packed stacks of boxes lying around everywhere and I could see the sun was starting to set. I could see at a distance not very far from me was Mike Bickle standing with two other men I did not know or recognize. I only knew in the dream that these two other men were visitors at IHOP from the outside and they were not part of IHOP itself. Mike Bickle was talking with them; they were having a conversation about something that I could not hear. I only remember very clearly that Mike Bickle was smiling a big, happy smile and joking with them. They were laughing together and having a great time, which was a huge contrast to what I had just experienced inside of the building. They all had their backs turned to the building, looking out away from the building, so that I was able to sneak by them, going from box to box, keeping myself hidden as I went. And then I saw ahead of me the street, with my family waiting there for me by the car, and I ran for it, very relieved as I woke up to have gotten out of that place with my life.

Dream 3: (Additional Explanatory and Understanding) – This dream and Dream 2 reminded me of Ezekiel 8 when YHWH was showing him all of the abominations being done in the set-apart place (holy place) at the Temple. With this dream YHWH exposed that it is not only in the Prayer Room that there is hidden sin and abominations going on, but also at the IHOP University, with a very deep level of victimization and spiritual destruction being done to the young people at IHOP. So my family knew at this point as we were interceding for the people at IHOP that there were very serious things going on that YHWH was wanting to have dealt with. The understanding of everything in this dream is probably obvious to everyone now, as YHWH is currently exposing all of the things in this dream publicly, so I will not spend much time on explanations about this dream. The other man in leadership with Stuart Greaves and David Sliker who I did not recognize I believe represents other people in leadership at IHOP who have also been involved with the victimization and cover up of victimization in IHOP, but they are not in the public eye where they would be known by people outside of IHOP. With this dream YHWH only just started to reveal Mike Bickle's involvement a little bit, but it is still not perfectly clear yet at this point just how much he was involved. The fuller exposing of Mike Bickle himself came in later dreams. The important thing to note with this dream is that there are an enormous number of victims at IHOP who have not come out yet with their stories, and there are a lot of hidden evils that were done at IHOP that are still not yet exposed. And there are many levels of abuse at IHOP that still have to come out and be exposed in relation to all of the cult and brainwashing related spiritual abuse secretly happening there.

In this dream YHWH exposed the way that IHOP was set up to be able to keep all of the evil hidden and prevent the world from seeing all of the victimization taking place. Stuart Greaves and David Sliker and other leadership within IHOP would take care of keeping the people inside of IHOP asleep and in a trance, so that they would not be able to see the victimizing and evil abominations being done to the people around them. At the same time Mike Bickle would work as the front man on the outside with the visitors and outsiders to IHOP, keeping them distracted, looking away from the building, away from what was happening on the inside, and making everything on the outside look normal. This is why they were able to keep everything hidden for so long, but this time YHWH very brilliantly took out Mike Bickle, the front man on the outside, so that there was no one there to keep the people outside of IHOP distracted and appeased.

In October and November of 2023 everyone watched during the Forerunner Church services Stuart Greaves and David Sliker try to do the normal thing they always did, getting everyone inside of IHOP distracted with music and Bible verse quotes and make everyone go back into the trance of sleep again. But it did not work this time, because there was no Mike Bickle anymore to guard the outside. This time YHWH brought in overwhelming pressure from both the inside and the outside of IHOP that wiped out the normal protocols that Mike Bickle and Stuart Greaves and David Sliker and others had successfully used in the past to keep all of their injustice and abominations covered up. And the fight is not over yet as there is an overwhelming amount of sin and abominations and victimizations inside of IHOP that YHWH still has not finished dealing with. Stuart Greaves and David Sliker also have a lot of blood on their hands together with Mike Bickle that they will hopefully repent of at some point. This dream was very helpful at the time that I had it to explain a lot of mysteries about the people at IHOP as we watched them on the livestream, explaining the hidden system of manipulation and abuse that they were suffering inside of, but which they did not know they were under.

4. Dream 4: (2018) – At the beginning of this dream I saw Mike Bickle sitting at his desk in his office at IHOP. For this entire dream I was with Mike Bickle, but it was as though I was not really there, and I listened to him talking out loud to himself through the entire dream. He never once spoke to me in this entire dream. Mike Bickle was getting ready to go home after a day of work at his office as he was putting things away and getting office work that he had to take home with him. And while he was getting ready to go home he started talking to himself about something that had just happened. He was talking about how he was guilty of having committed adultery with multiple women. And one of the things that I remembered very specifically about this dream after waking up was noticing this detail about how Mike Bickle in the dream only ever used the word “adultery,” but never once was the word “affair” used in the dream. The other detail is that he was very specific in the dream in saying that he himself was the one guilty of adultery but there was never any indication that the multiple women were guilty of adultery. This was one of the strange, precise wording parts of the dream that I took notice of after I had woken from the dream, that Mike Bickle was guilty of adultery but there was nothing about the women being guilty of adultery. It was a mystery at the time that I did not understand yet. The other very precise words that Mike Bickle spoke about next was that he was guilty of committing adultery with these multiple women by the “words” he had spoken to them and by the ways that he had “touched” them. It was very precise and specific in the dream that Mike Bickle said that he was guilty of the adultery with these women by these two means of “words” and “touch.”

And this point in the dream I was shocked by what Mike Bickle was saying and I was unable to believe that he could actually be guilty of the things that he was saying. He was beginning to leave his office now, walking out the door, and he was saying to himself that this adultery he was guilty of was about to come out publicly and that he knew that there was no way that he could stop it. And that was another one of the interesting things that Mike Bickle said in the dream that I really remembered very clearly because it was so strange, that Mike Bickle knew that whatever he had done was about to come out publicly and he knew that he was completely powerless to stop it from coming out. As we walked out of his office I saw that the interior walls of his office, looking into the hallway, were completely made of glass, like giant windows going all the way to the very edges of the exterior walls. And as I looked back into the office as we walked away from it I could see clearly into the entire office, with nothing in the office hidden from view. There were also no blinds or curtains on these interior walls made entirely of glass like windows, so that it was impossible for a person inside of the office to be able to prevent anyone from seeing into the room. Interestingly there were no exterior windows in the office, so that the exterior walls were completely opaque without windows of any kind, just the walls with no way to see outside.

We were walking together through the hallway until we came to what looked like a front reception desk or a secretary’s desk of some kind, and there was a lady at a desk there that Mike Bickle stopped to talk to for a moment as he was on his way home. But his thoughts were distracted and through the hallway as he was leaving IHOP during this part of the dream he was talking out loud, wondering if this public revelation of whatever sin of adultery he had done that was about to come out would mean that he would need to resign from

ministry and shut down his ministry. He was considering then trying to make a decision about possibly shutting down his ministry, and then he was also trying to decide and wondering if he needed to also shut down IHOP as a result of this.

Then we walked out to his car and I watched him drive away from the parking lot as the dream suddenly switched and I was at home with him. At his home I saw that he had two sons who were playing on the floor. They were very young, not more than 10 years old at the very most, but probably much younger than that. They were playing in a living room area close by to where Mike Bickle had turned on a computer at a desk where he was going to continue working on whatever he had brought home from the office. I noticed that Mike Bickle's wife was not at home, and she never appeared at any point in the dream. She was completely gone in the dream and I did not know where she was, but it was at this point in the dream that Mike Bickle was talking out loud again, processing about how he was going to tell his wife about the sin he had done with these women. In the dream he did not come to any conclusion about how he would tell her about what was about to come out publicly. There was some time spent at the end of the dream where Mike Bickle was busy working on his home computer and I was sitting on a couch, while his two sons were busy playing, and then the very last thing in the dream was that Mike Bickle was talking out loud trying to make a decision, trying to decide if he was going to repent or not of what he had done. Throughout the dream I noticed a huge weight of consuming guilt in Mike Bickle, in the way that he walked and the things that he said, that was continuously growing throughout the dream. At the end of the dream is when the guilt became really strong and noticeable, and that is when Mike Bickle was trying to decide if he was going to repent or not of what he had done. When I woke up from the dream he still had not made his decision yet to repent or not repent. In the dream I could not believe that Mike Bickle was guilty, and it was only Mike Bickle himself in the dream who was able to eventually convince me that he was guilty of whatever this adultery sin was, through his strong conviction in the dream about his guilt.

Dream 4: (Additional Explanatory and Understanding) – This was the first dream where YHWH began to expose that there is hidden sin in Mike Bickle's life that he has not repented of yet. I know that I had this dream in 2018 not long before the 2018 Onething Conference, because I thought of the dream often while watching the events of the conference live online. I remember very clearly when Lou Engle suddenly and unexpectedly went to the front of the stage and began to publicly confess and repent. After watching Mike Bickle for about 5 years at that point, normally he would keep tight control of everything associated with IHOP, and I was very familiar with the ways and methods he would use to keep in constant control of the narrative pertaining to every word spoken and every action done at IHOP. After watching Lou Engle catch everyone off guard with an unscripted confession of sin, I remember watching very carefully what Mike Bickle would do, specifically watching to see if he would confess and repent of his own hidden sin that I had seen in the dream. I remember cringing as he got up from his seat, hoping that he would do the right thing to also repent together with Lou Engle instead of doing his normal thing of taking control of the narrative and twisting everyone's minds and thoughts around to his own way of thinking. To be totally frank and honest, it was a nauseating moment to hear him speak as he decided to do his normal pattern to control the narrative and control people's minds instead of repent. But what an amazing thing that YHWH was so merciful to give Mike Bickle this golden opportunity to be able to confess

and repent of all the many decades of sin and abuse he had caused to so many victims. Instead we have learned that Mike Bickle has loved his sin more than he loves YHWH and eternal life with him, as he has continued in the same pattern of sin even now up till at least this last year in 2023.

In the dream in 2018 YHWH had not yet revealed everything or exposed everything, so I did not yet know that there were any victims involved. In the dream at this point YHWH only revealed Mike Bickle's sin alone, and at the same time he revealed that he would already at a future date be exposing Mike Bickle's sin of adultery with these women, and that Mike Bickle would be completely powerless to stop this exposing. Most of the things in the dream are probably obvious to people now as YHWH is bringing out all of the truth at the present time. But it is important to note that the exposing that is happening with Mike Bickle presently is entirely from YHWH and that he had always planned on exposing Mike Bickle at his appointed time, because, as YHWH reveals in the dream, even at the time that YHWH exposes him Mike Bickle still has not repented of any of the sin he has done against the multiple women victims over the years. That is where we are now, as Mike Bickle is making his choice if he is going to repent or not. And this unrepentance has gone on from the very beginning with his very first victims, as is shown in the dream with Mike Bickle's sons being so young. The adulterous sin and unrepentance of that sin of sexual abuse he committed against even his early victims like Tammy Woods and TH has been going on for decades in Mike Bickle's life. When a man grooms unmarried girls and women into a relationship with him, without any intention of marrying them, it is the same thing as though he is committing adultery against those women and against their future husbands.

It should be noted in the dream that the interior walls of Mike Bickle's office were completely made of glass, as a symbol of YHWH exposing everything in Mike Bickle's life, including everything he ever did in his office behind locked doors. The office is a symbol of Mike Bickle's life where he has tried to keep everything private and hidden, completely shut off to the world like the exterior walls of the office that had no windows at all, but YHWH is exposing him, turning his walls to glass with no way of being able to cover those windows. It is the fight and wrestle that YHWH and Mike Bickle are having with each other now as Mike Bickle fights to stay hidden, and YHWH fights to expose. Unfortunately Mike Bickle's life has become an example of Isaiah 64:5-6, how all of our righteousness is no more than filthy rags, when there is a continuance in unrepentant sin.

5. Dream 5: (About 2019 to 2021) – In this dream I knew that I was at IHOP, but I was trapped inside of the walls and ceilings, trying to find a way to get into IHOP and out of the interiors of the walls. I was walking around inside of the walls and crawling through the interiors of the ceilings, above the ceiling tiles, trying to find a way to get inside of the building. I could see inside of rooms and hallways through cracks, peeking through them, but I could not find a way in. Finally I found a way along the interior of the walls that led to a room that had people inside, all of them men from what I could see through a crack. And I could hear someone teaching them, and discovered from listening to them that it was a class on how to get free from pornography. It was at this time that I finally found a door at the end of the interior of the walls, which I discovered led outside of the building when I went through it.

When I was outside of the building I discovered it was night and dark outside, except for some outside lights on and around the IHOP building. Now that I was outside of the building I was trying to find a door that could lead to the inside of the building, to actually be able to get into the building itself instead of being trapped inside of the walls and ceiling. It was then that I found close to me a porch-like structure in front of a door that looked like it went into the building. But I also saw that Mike Bickle was sitting in a chair in front of the door, guarding it and preventing anyone or anything from getting into the door without going through him first. As I walked up to the door and where Mike Bickle was sitting he was startled as I was coming out of the dark into the porch light above the door and he quickly stood up and pulled out a revolver that he pointed at me, asking who was there. When I came out into the light he recognized me as someone he already knew in the dream. (I have never met Mike Bickle and do not know him, but in the dream I was supposed to be someone he knew.) And I said to him, “It’s just me.” That is when he knew who I was and he put the revolver down, still holding it in his hand, and then relaxed, looking very tired and worn out from working so hard to guard the door. At this point we talked for a little bit about something that I did not remember when I woke up, but he never did let me in through the door. I only know that I represented someone who he knew well and had known well in the past, and that he was very nervous and afraid about either someone or something that he was trying to prevent from getting into the building, into IHOP.

Dream 5: (Additional Explanatory and Understanding) – There is a lot of this dream that I still do not fully understand; maybe people who have been a part of IHOP will see things with this that I would miss. The basic concept of this dream is showing again that Mike Bickle is the outside guard of IHOP, guarding the door and totally controlling who and what is allowed into IHOP, or allowed out. But at this point during the timeframe of 2019 to early 2021 Mike Bickle is getting tired and worn out as the guard, trying to stay in control of IHOP, and control what gets out and what gets in. The class on trying to get rid of pornography addiction shows the system that Mike Bickle had created in IHOP of striving in the flesh to get rid of sin in IHOP in the flesh without involving Yeshua at all in that cleansing and saving. It is the sin of pride, to attempt to be righteous in our own flesh on our own without submitting to Yeshua’s process of cleansing from sin, because it requires a total surrender of ourselves to Yeshua as God in total control of our lives to let him be the cleanser. And he exposes sin as he deals with it, especially unrepentant sin as with Mike Bickle, which Mike Bickle is fighting hard against YHWH to keep from exposing.

This dream is basically showing the pride of Mike Bickle in thinking that he can deal with the sin in IHOP without having to involve YHWH at all, and he thinks that he can keep the Spirit of YHWH out of the building and prevent any exposing of what is going on inside. But there are cracks and leaks beginning to form in his defenses at this point, as people are able to start seeing inside of IHOP and inside of Mike Bickle’s life from within the walls and the ceilings, little bit by little bit the inside being exposed and revealed more and more to those on the outside (and people on the inside having their eyes opened as well). The revolver is often a symbol of power, from the old Wild West days when it was first invented. It gave a lot of power to people in gunfights and battle as it was a huge improvement on the old single shot, black powder pistols in use up to that time. It

can also often be a historical and cultural symbol of a person drunk on an illusion of power, thinking that they can do anything as long as they have that gun in their hands.

I believe that this dream is showing how YHWH is beginning to create holes and leaks in IHOP, and even people who Mike Bickle knows as close friends he is beginning to try to shut out of IHOP in order to prevent the IHOP organization from being exposed for what it really is and what he and others in the leadership have been doing there all these years.

6. Dream 6: (First Dream of June 1, 2021) – At the beginning of this dream I was in a hallway at IHOP with lots of offices on either side of me and all around me. I saw Mike Bickle walking with another man I did not recognize, but who I could see was his friend. They were talking about a problem that Mike Bickle had, but they were not going into any specific detail in the hallway about what this problem was. They only talked in general terms so that anyone hearing them would not know what Mike Bickle’s problem was that he had.

Then Mike Bickle went into his office alone, right next to where I was standing. As he went into his office he left his door open a crack. Through the crack I could just barely see him and faintly hear him talking on the phone with someone. I did not want to be seen standing there by his door, accused of listening in on him, so I went down the hallway around a corner, and then went through a glass door to the outside.

I was walking along the outside of the building to a corner of the building, and I was surprised to see Mike Bickle was also outside and standing there by the building, appearing to be heading home from work. And then he began to speak what sounded like prophesying a prophetic word, speaking the word of Yeshua in first person, which began with the words, “I am coming back at midnight.” [This is a reference to Matthew 25:6 when the bridegroom comes at midnight, and Matthew 24:43-44 in which Yeshua says he will come at an unexpected time in the night like a thief in the night.] I do not remember any of the rest of the words that Mike Bickle was prophesying, only that they were part of the same theme of what sounded like Yeshua prophesying about his return. In the dream I was thinking that I had already been talking about the same things the night before that Mike Bickle was now speaking about.

At first it sounded like Mike Bickle was speaking a true, scripturally based prophetic word from YHWH, but then I watched as Mike Bickle’s face began to morph and physically change. It was a horrifying feeling in the dream watching him as his eyes became almost totally black and something white colored that looked like plaster began to grow over his face from the top down toward the bottom. This white plaster looking material grew in his face as though it were morphed into his face as a part of the skin and flesh of the face itself, and eventually transformed into a white mask completely covering his face. It looked exactly like the classic theater symbol masks that are seen in and around theaters and theatrical literature, except that this mask was haunting in the way that it had no expression at all, just completely dead and lifeless expression on the face. Throughout this whole time that the mask came over Mike Bickle’s face I could still hear him prophesying this prophetic word except that as the mask came over his face his words became stifled mumbling sounds that I could not hear or make out any of the words anymore, because the mask was blocking all of the words from coming

through. The mask covered up and hid all of the words that Mike Bickle was prophesying, preventing the words from being heard beyond just indistinguishable mumblings.

Then I remembered that I had seen this mask before and the dream switched to me remembering the image of seeing a box on a shelf in a store with the image of the white, plaster mask on the box, like a mold for anyone to be able to make their own mask. The mask that Mike Bickle had fused onto his face was the same mask pictured on the box, except the one on the box had a more traditional expression on it, and the masks looked exactly like the classical theater masks that can be seen used as symbols of the theater over and over again. I later discovered after research that these masks are known as the Greek Comedy and Tragedy Masks that have been used as the symbol of theater for more than 2,000 years, in remembrance of the Greeks who invented theater. The mask on Mike Bickle's face looked exactly like those masks, except that the mouth had no expression to it, no life or feeling or emotion in it, making it a terrible thing to look at in the dream. At the end of this dream, right before I woke up, I had a short second dream, shown next.

Dream 6: (Additional Explanatory and Understanding) – Up to this point YHWH had revealed that there was a lot of hidden and unrepentant sin in IHOP, even in Mike Bickle's own life, and that there was a lot of abuse and victimization going on in IHOP at the hands of the leadership, including Mike Bickle. YHWH had also shown in the dreams that Mike Bickle is fighting very hard against YHWH and against his will, and that Mike Bickle's ministry would not survive through YHWH's refining fires to have anything relevant or worthwhile in it afterward, needing to throw out most of or perhaps all of his ministry. But this was the first dream where YHWH began to reveal the full depths of how dangerous Mike Bickle is and how nothing that comes out of his mouth can be trusted. I did not know yet to what extent Mike Bickle had really fallen into sin or where he was at in his relationship and salvation with YHWH.

The “problem” that Mike Bickle has in this dream is a running theme that continued on into the second and third dreams that I had all in one night on June 1, so I won't address the problem yet here. I think that everyone can see for themselves the horrible mask that comes over Mike Bickle's face, but is fused into his face as though it is part of his flesh, represents that he is “two faced” and that he is living a “double life.” It also shows that he is an actor, wearing a classical Greek actor's mask. The Greeks invented theater and theater acting. At the time of ancient Greece the actors always used masks, but then in the Roman Empire era the masks fell out of use and became the now over 2,000 year old symbol of theater. When I discovered the mask I had seen in the dream was Greek, I immediately thought of the Greek word “Hypocrite” (more properly pronounced as “Hupokrites”), which refers to a person as being like an “actor under a mask,” not living by what they preach.

It should also be noted that the mask of the double life that Mike Bickle is living prevents him from being able to hear YHWH correctly or speak a true prophetic word from YHWH, because the mask comes over his face and turns the prophetic word into incoherent babbling, shutting him up from speaking the pure truth. The black eyes indicate spiritual blindness in Mike Bickle, while at the same time are a reference to Matthew 6:22-23 about the eyes being the lamp of the body, and bad or dark eyes being a sign of darkness throughout a person's body. The white mask is also a symbol of Mike Bickle putting on an act or cover of looking clean and white on the outside, but leaving the inside unclean, referencing Matthew 23:26-28 when Yeshua speaks against

the Pharisees with their whitewashing and cleaning of their lives on the outside, without cleaning the sin and hypocrisy on the inside.

Also, the fact that his eyes turned black while the mask came over him, together with the face of the mask being so blank without emotion, unfortunately indicates some form of demonic attachment or demonic possession in Mike Bickle's life (attached to his double life) that he needs to get free of, which can only happen if he repents and never goes into ministry ever again for the rest of his life. YHWH is showing in the dream the depths of the spiritual battle going on that the victims of Mike Bickle and the people at IHOP have been up against. It is why only YHWH can overcome Mike Bickle and the deceptions at IHOP, as he fights for and with those who are trying to stand up against Mike Bickle and the IHOP organization machine he created.

7. Dream 7: (Second Dream of June 1, 2021) – In this second dream in the same night, inside of the dream I was just waking up from the first dream, and still inside of the dream I was telling my brother and possibly other family or friends the first dream that I had just had that night. At the beginning it was mainly just me and my brother and some other guys talking about the first dream, and we were having a discussion about trying to figure out and understand what Mike Bickle's problem was at the beginning of the first dream of that same night (when Mike Bickle was discussing with another man walking through the hallway about a problem that he had). My Mom had walked into the room in the middle of the discussion and we were starting to talk about how Mike Bickle's problem was a guy problem; then she walked away saying that she did not want to hear about it if it was a guy problem. That is when I woke up from the second dream, and then had a third dream when I went back to sleep again.

Dream 7: (Additional Explanatory and Understanding) – In the first dream of June 1 it began with the issue of Mike Bickle having a problem, which is continued into the discussion within the second dream. This “problem” also continues into the third dream of the same night on June 1 shown later on. The first dream of the night showed that Mike Bickle's problem was starting to become a little bit visible and known to the people at IHOP and Mike Bickle's friends within IHOP, but that Mike Bickle was keeping the problem a secret so that people only knew that there is a problem with Mike Bickle, but they did not know yet what that problem is. This second dream of the night shows that Mike Bickle is treating the “problem” as a “guy problem,” or in other words he is trying to keep his problem a secret problem that no one else knows about. And normally, even when guys have “guy problems,” or private problems of a guy nature, they are still able to talk to their close guy friends about those problems. In this case, this second dream is representing symbolically that even the guys talking with each other who would be Mike Bickle's guy friends, do not know what his problem is, because he is withholding his problem even from them, keeping it a secret from even his closest friends.

Summing up about the problem so far, the first dream of the night was showing that people at IHOP are starting to see there is a problem with Mike Bickle, but he is hiding and keeping that problem a secret from everyone at IHOP, so that they do not know what that problem is exactly. Then the second dream of the night shows that Mike Bickle's closest guy friends are also beginning to see that Mike Bickle has a problem, but they

do not know what it is either, because he is keeping the problem a secret hidden from them. Later on in the third dream of the night, it is shown that even Mike Bickle's family, as they begin to see that he has a major problem, does not know what his problem is, because he is keeping his problem secret and hidden from them as well. All together it shows that Mike Bickle is hiding his problem from everyone on earth, not letting a single person come into his life and see the problems and imperfections that are there in his heart. There is no one he lets inside of him, into his heart, keeping everyone out, including his colleagues at work, his closest friends, and even his family. The mask of his double life in the first dream of the night is something that he wears with everyone, never letting down to be himself and show himself. He is cutting everyone out of his life, shutting out every person who could help him with his problem.

Beyond this is the more serious issue that Mike Bickle's theater mask of his double life, has made him grow dark inside, as shown with the black and dark eyes in the first dream. This means that Mike Bickle has even shut YHWH completely out of his life with an uncircumcised heart. The uncircumcised heart that shuts out YHWH is very serious, because according to Deuteronomy 30:6 a circumcised heart is the only way to be able to obey the greatest command in the Torah, the command that Yeshua speaks of in Deuteronomy 6:4-5 (in Matthew 22:37-39), to love YHWH your Elohim with all of your heart and all of your being and all of your intensity/strength. It is impossible to be able to love YHWH without letting him circumcise your heart, to keep your heart open at all times, never shutting him out. These three dreams all on the same night on June 1 show that Mike Bickle has many layers of problems of sin and abuse he has done towards people, but the central, core problem being talked about in the dreams is the problem with his uncircumcised heart that has shut out YHWH and everyone else, allowing him to become dark inside and cause great harm and abuse to many victims, including the sexual abuse that is now being exposed. The black, dark eyes in the first dream show that his heart and interior is dark and uncircumcised against YHWH, as he has kept YHWH out of his life.

8. Dream 8: (Third Dream of June 1, 2021) – In the third dream I was at an amusement park area in a town or someplace I did not recognize. There were different rides and parts of the amusement park spread out in a large lot area. I saw Mike Bickle and his wife Diane there at the amusement park together. Eventually I ended up at a spaceship attraction like are seen at amusement parks, and the building that the spaceship attraction was in was a giant, circular building structure for giving a person the experience of going into space. Mike Bickle was there and there was a group of us going into this attraction together.

After we were inside, there was one point where I suddenly knew that it was a trap. There was something that started happening that I did not know or understand what it was that was happening, except that I knew it was really evil. I ran for the door and was able to escape through the door, leaping out of the circular building while feeling a strong, intense force of wind as I got out. It was at this point that I could see a ring that had appeared around the building, which had not been visible before. The ring had witchcraft symbols and writings all around the ring and I knew I had to get out of the ring. As I leaped out of the ring that had the Satanic symbols of witchcraft all around it, the building exploded from an intense pressure force of air that was in the building, which I felt as I was escaping. Everyone was gone; I was the only one there alone, and I knew that I

had escaped a great evil. After getting away I went back to see what had happened and I saw that the building that had exploded was completely gone, with only a cement slab remaining in the place where it had once stood.

After I had escaped I went home. It was a house that I had never been to before and did not recognize, but in the dream I knew that it was my home, and my family was there. I went into a living room area and in the corner was Mike Bickle's son who had come over to visit us. There was no name used in the dream, so I do not know which son it was supposed to be, just that he was Mike Bickle's son visiting my family, and that he looked like he was in his late teens. Then all of my family together with Mike Bickle's son were discussing in the dream about the first dream that I had had that night about Mike Bickle and trying to understand what Mike Bickle's problem was. His son did not know what his father's problem was.

Then I started talking about another dream that I had had about Mike Bickle, where Mike Bickle had talked about having an affair in the dream. [This dream about Mike Bickle saying he had had an affair is a dream that I have never actually had in reality and is not referring to the dream that I had in 2018. During the dream it was as though I was having another dream at the same time within this dream, telling Mike Bickle's son about the dream as I was having the dream.] As I was telling Mike Bickle's son about this dream I had had, I was not sure how much of the dream to actually share with him. But I told Mike Bickle's son that in this dream that I had had about Mike Bickle saying that he had an affair, Mike Bickle in his mind was only thinking that what he was doing was having an affair. I told Mike Bickle's son that in the dream when Mike Bickle told me he had an affair I did online research in the dream that indicated and showed that whatever the thing was that Mike Bickle did was not an affair, even though he was thinking in his mind that he was having an affair at the time.

Mike Bickle's son in the dream was really nice throughout all of this, but he was really thinking and trying hard to process all of what I had just said to him, trying to understand the dream. By this time we were all sitting next to a television on a wall, and a television program came on with Mike Bickle on the program. We were all watching the program and Mike Bickle's son had switched to being really focused on and trying to process what was happening on the program, because the things that were being said and discussed about Mike Bickle on this show were not good things about his father. And in the dream as I was watching him, while he was watching his father on television, I could see that he had started to see that something was not right with his father. Then at that moment while we were still watching this program on television, I started telling Mike Bickle's son and my family in the dream not to tell anyone about the dream I had had about Mike Bickle in which he says he had an affair. In the dream just before I woke up the impression and feeling I had as to the reason why they should not share the dream with anyone was that I was afraid people might believe the false statement Mike Bickle made in the dream about having an affair when in reality I knew the truth that the thing he did was not an affair. In this dream the word "adultery" was never used once, only the word "affair."

Dream 8: (Additional Explanatory and Understanding) – When I woke up from this third dream of the night of June 1, I was at first perplexed about what it could mean that Mike Bickle committed "adultery" as shown in the 2018 dream, while at the same time according to this dream in 2021 the "adultery" was not an "affair." If I had not had the other dream in the same night about Mike Bickle with his mask I would have had a hard time accepting the only conclusion that I could come to from this dream, which of course was that Mike Bickle was

guilty of something really bad in the form of sexual abuse. Putting together the pieces from the 2018 dream about adultery with this dream, this was the first time that I realized there might be victims involved in whatever Mike Bickle had done, because a relationship that is an “affair” has to be a consensual love relationship between two adults in which no abuse is involved whatsoever. If there is any type of manipulation or abuse or grooming or minors involved the relationship can no longer be considered or called an affair. At the time I did not want to speculate or imagine what Mike Bickle might have done, but I did recognize for the first time that whatever the unrepentant, adulterous type of sin Mike Bickle did, which YHWH would be exposing at some point, was something really bad probably involving victims.

There was also the warning in this dream that at the time that all of the bad things that Mike Bickle did would start coming out and being exposed publicly in the media and on television, as shown in the dream, to not trust what Mike Bickle would say about it. There was a clear warning in the dream that Mike Bickle would try to control the narrative by creating a false narrative that he had consensual “affair” relationships with the women, when in reality, as we now know, he had totally abused them and victimized them into manipulated relationships. The part in the dream of discussing Mike Bickle’s “problem” with his son was already discussed in the previous dream explanatory section.

I do not know why Mike Bickle’s wife Diane was in the beginning of the dream for a short time, and then absent and gone for the rest of the dream. In the previous dream in 2018 she was completely absent and gone for the entire dream, like a vacuum where her absence was very noticeable. I will not speculate about what any of that means, but Diane at the beginning of this dream might be showing how Mike Bickle has taken her on the same carnival ride that he has taken everyone on, keeping everyone distracted with the excitement and stimulating experience of an amusement park.

The spaceship simulator ride at the amusement park is a symbol for trying to have forced and simulated supernatural experiences, in the same way the spaceship ride gives a simulated experience of going into the heavens into space. It is a ride for the purpose of having an emotional and thrilling experience of what it might be like to go on a space adventure, except that it is only a simulation or counterfeit of the real thing. In the same way, trying to get counterfeit, simulated spiritual experiences that are a thrilling, emotional ride opens the door to allow witchcraft and demonic supernatural experiences into a person’s life. This is a trap of great evil that brings great destruction, leaving a blank and empty lot with nothing gained in the end. Mike Bickle has kept everyone entertained and thrilled on a simulated amusement park ride, but the counterfeit is never a substitute for the real thing, for the real and true experience of meeting and knowing YHWH.

9. Dream 9: (October 29, 2021) – In this dream I started in the beginning in a large room that looked like a Sunday School type of classroom with chairs sitting in sort of rows and other chairs stacked around the room. The chairs were facing towards a portable, metal podium for a speaker to stand at, and there was a man who looked like he was a teacher or speaker who was putting away things as he was leaving. There was only partial lighting in the room as part of the room was dark. There was a young man with me who I had never seen before and did not recognize, but who in the dream I was supposed to be friends with. I and this friend together in the

dream began going through lots of large, empty rooms like the one I started in at the beginning of the dream, going through door after door into room after room remembering all of the good times that we had in these various rooms. I knew in the dream that I was at a church, but I did not know what church. I only knew that this was a church that I was supposed to have been going to and remembering good times in the various rooms that looked like church rooms for various Sunday School teaching purposes. But as we went through the rooms the lights were getting shut down in the rooms and everything was going dark. There were no other people in any of these rooms, just this friend and I together, going through as the lights were shutting off and everything was going dark and the rooms looked like they had not been in use for a while. The friend and I were both missing the good old days.

At this point in the dream the young man disappeared from the dream and I never saw him again for the rest of it. I went through a double door and found myself in a room that looked like the Prayer Room and the sanctuary of the Forerunner Church combined together into more medium sized room, and this is when I knew for the first time in the dream that I was at IHOP. There was a worship team on the stage performing some worship music there. I also saw that Mike Bickle was there together with many young adults and youth all around the room who were praying and talking to one another. I knew that this room was the only room left in the building with the lights still on, because I had been through all of the other rooms and they were all dark.

On the back wall there were lots of stacks of chairs piled up against the wall. On one of the lower stacks of chairs I saw a light turquoise blue stocking hat sitting on one of the chairs and I was asking everyone nearby if they knew whose hat this was. Then Mike Bickle silently, without saying a word, walked over and sat on the hat. In the dream while I was watching, the feeling was that I was watching Mike Bickle doing a prophetic action. Then one of the young adults handed him a Bible opened to Revelation, to pages containing chapters 5 and 6, and I saw that parts of those pages of Revelation had been highlighted with a turquoise highlighter, the same color as the hat. I knew in the dream that the highlighted portions of Revelation meant verses that YHWH was showing Mike Bickle are currently in process of fulfillment at the present time. Then Mike Bickle took out a turquoise highlighter and highlighted the words written on the page, "I looked and I saw the third seal opened," and I knew in the dream Mike Bickle was highlighting another new verse in Revelation that YHWH had just shown him was now in fulfillment, referencing the third seal verses in Revelation 6:5-6.

The young adults around Mike Bickle started processing this revelation from YHWH about the third seal already being opened. They were all serious and somber, but I was very happy and excited in the dream, because I misunderstood and thought that Mike Bickle and IHOP were finally listening to YHWH about the prophecies in Revelation being in fulfillment now in the present time [not something that is many decades away in the distant future when Mike Bickle is dead and his great grandchildren are adults with children of their own as Mike Bickle always says over and over again]. I was thinking to myself about how far behind they were in where we actually are in Revelation being fulfilled. That is when I opened my mouth in the dream without thinking and started telling Mike Bickle and the other young adults nearby about how it is great that they at least are recognizing that the third seal has been opened, even though they are very far behind. And I was explaining to them how most of the prophecies in Revelation are being fulfilled right now, and that we are way beyond the third seal at this point.

Then everyone was staring at me with serious looks, and Mike Bickle was looking at me with an intense anger (if looks could kill). And I was trying to figure out in the dream what I had done wrong, because I thought that everyone in the room was in agreement about the prophecies in Revelation being in process of fulfillment at the present time. That is when I started to realize in the dream that Mike Bickle was very angry at YHWH for showing him that these prophecies in Revelation are being fulfilled right now, and that he was trying to hide it from everyone, so that no one would know that these Revelation prophecies are being fulfilled now.

The young adults around Mike Bickle could see that he was angry with me and he did not have to say a word to them. On their own they came around me and began to escort me away from Mike Bickle toward the door leading outside. That is when I recognized, as we came near to the door and could see the sunlight coming through the glass on the door, how low and dim the lights had been in the combination Prayer Room and Sanctuary, compared to the bright light of the sun outside. That was the brightest place at IHOP, by the glass door with the light coming in as there were no windows anywhere in the building. I thought that they would take me outside, but instead we turned down a dimly lit hallway, that at the end of the hallway looked totally dark with no lights on in the rest of the building except in the Prayer Room/Sanctuary room alone.

At this point I was going to go back into the other rooms I had been in at the beginning of the dream, but then I was told that no one was allowed to go into those rooms anymore. They took me through the hallway, walking all around me as they escorted me. Then we stopped in the hallway at a place where the ceiling of the hallway opened up into what appeared to be a ledge that led into a crawlspace in the ceiling. It was above the door frame of the hallway as the hallway continued further on, and the ceiling in this part of the hallway was twice as high as the rest of the hallway, leaving space for a ledge above the hallway that went into what appeared to be a dark looking, square hole to access above the ceiling.

The young adults and young people (in their late teens and early twenties) began speaking of this place (that looked like a crawl space in the ceiling) with fondness, telling me about how they used to love going to this place in the old days before everything was shut down. While they were talking with me they were lifting up a flagpole that had a metal chain wrapped around the pole in the shape of what looked like a chain ladder wrapped around, providing a way to climb up to the ledge. The flagpole was placed into a special hole in the floor for supporting it, and I could see that this was the only way to get up onto the ledge and crawlspace above me. They talked about how much fun they used to have climbing the pole to get up into a special room that was up there in the ceiling, as one of them started climbing up the flagpole and I followed next, thinking that the rest of them would follow.

When I reached the ledge and was standing on it I saw that the young adults were all still on the floor below me and were not going to be climbing up there with me. The other one that had climbed up was gone and presumably back down again on the floor below. And I saw that they had taken the flagpole back down again, as it was lying on the floor now. But now that it was on the floor I saw that there was a crumpled up flag lying on the floor, but attached to the top of the flagpole. This flag had the exact same turquoise color again as the hat and the highlighter, except this time there was also a yellow color mixed with the turquoise blue. I could not see the flag very well, because it was in a crumpled up mess on the floor, but I could clearly see the two

colors of the flag. [Later after I had woken from the dream I suspected that these were the colors of the Ukrainian flag and when I looked it up I found that the two colors of turquoise and yellow in the dream are the exact colors of the Ukrainian flag, in the lighter blue colored versions of the flag that are often seen in use in images and photographs and video footage of the Ukrainian flag. This lighter blue color of the Ukrainian flag was actually the original color of the flag before the Soviet Union was formed.] There were no special symbols on the flag, only these two colors.

I was asking the young adults why they were not coming up, and they said that they never go up to that place anymore, because they are too afraid to. This is when I looked up to my left toward where the crawlspace had been, but now I was amazed to see a giant, enormous room with an incredibly high ceiling. The brightness of the light in the room was the brightest light I had seen in the entire dream, even brighter than the sun outside. The room was so bright that there was no darkness in it anywhere, not even shadows, and I was trying to figure out in the dream how this room could be here in the ceiling, because the building was a one story building. There was no second floor for this room to be able to exist there and I tried to understand how this room could be up in the attic of the building. The room had a stage at the far end of it, with lots of perfect, neat rows of chairs, unlike all of the rooms I had been in before with messy rows of chairs and chairs piled around all over the place. The room sat empty with no one in the room, except for one, single, lone man who was sitting in an aisle chair in a middle row all by himself. He sat with his back to me so that I never saw his face. It looked like some of my family were standing at the very back of the room in what appeared to be a hallway walkway area close to where I was, but this man was the only one who was actually in the room itself, sitting all alone in the seats.

I could not understand why these young adults did not want to come up into this room, because I could not find anything wrong with it that would cause them to be afraid to be up there. The reason they then gave to me for not going up there anymore into the room was because of the nine seats. That is when I looked to my right and noticed for the first time right next to me on the ledge that I had been standing on there was a semi-circle of seats that were very tall backed seats and looked to be beautifully carved and but very simple and minimal in appearance. The interesting thing was that these seats in a semi-circle were facing away from each other, looking outward from the semi-circle instead of inward. And in front of each seat was a little table with plates and silverware and place settings perfectly arranged for a meal. The seats were all empty with no one sitting in them. I did not count the seats in the dream to know how many there were; I only knew the number nine from what the young people at IHOP were saying.

The young adults were saying that they were afraid of these nine seats, and one young man looked at me with a face of anger saying, "Those nine seats are evil," and appeared to be accusing me of being evil for just standing next to these nine seats. And the young adults said that they were not supposed to be anywhere near those seats. At first I was confused at this point in the dream and was trying to explain to the young people below the ledge that I was not sitting or eating in these seats and that it was impossible for me to sit in nine seats simultaneously. I could not understand why they hated me and these nine seats so much. Then at the end of the dream, before I woke up, I understood that the young adults had taken me there to this room and trapped me there, by taking away the flagpole, in order to get rid of me and remove me from IHOP.

Dream 9: (Additional Explanatory and Understanding) – The main, foundational part of this dream that all of the other elements revolve around is the part of Mike Bickle with the hat and his highlighting of the phrase that symbolically indicated in the dream that the third seal has been opened and the prophecy of the third seal in Revelation 6:5-6 is in process of fulfillment. Mike Bickle highlighted the words, “I looked and I saw the third seal opened,” with the turquoise color highlighter, the same color as the hat he was sitting on. Because in the dream it was very specific that Mike Bickle was trying to hide and conceal from everyone that the third seal has been opened and is in fulfillment, and at the same time is very angry in the dream at YHWH and anyone who would suggest that the third seal is open or in fulfillment, after waking from the dream I immediately thought of the English expression “keep it under your hat” in reference to the stocking hat sitting on the chair. Then Mike Bickle sat on the hat, which is another English expression known as “sit on it.” “Keep it under your hat” is a very old English expression for keeping something a secret and keeping the secret concealed and covered up so that no one else will know about it. The expression “sit on it” is another English expression that has to do with someone who has information or a secret that they are keeping concealed and hidden from public knowledge, deliberately trying to prevent people from knowing about a secret something.

In the dream Mike Bickle is not only keeping a secret under his hat, but is also sitting on the hat, in a double layer of keeping things secret and hidden, keeping things covered up, that he does not want exposed or known publicly. The hat that Mike Bickle was using in the dream to keep things hidden and secret under was a turquoise blue color, and the highlighter that Mike Bickle used for highlighting the phrase, “I looked and I saw the third seal opened,” referencing the third seal verses in Revelation was also turquoise blue, showing that Mike Bickle was attempting to cover up and hide the fact that the third seal in Revelation is open and in process of fulfillment, like covering it with the hat or keeping it under the hat in secret.

At one point in 2022 I happened to randomly see the livestream come up on YouTube for IHOP on one of the nights when they used to do their Friday night services, and decided to click on it to watch, even though I normally would not have watched it. And Mike Bickle was in the middle of talking about one of his old “prophetic history” prophecies about a black horse. It was mostly incoherent rambling that I could not understand what he was saying about this black horse, and I could not figure out what the point would be of me even watching anymore of it, because it was all gobbledygook to me. It took me a while to finally put together the pieces and remember this dream that I had about the third seal and realizing that the third seal is about a black horse. Then I finally understood at that point that YHWH was trying to show me that this black horse prophecy Mike Bickle was talking about was a false prophecy, which was resulting in Mike Bickle covering up and hiding the truth that YHWH is wanting exposed, that the true prophecy of the black horse of the third seal in Revelation is in process of fulfillment at the present time. And I was so grateful to YHWH for giving me this dream so that I would know that Mike Bickle’s black horse prophecy was a false prophecy, which was covering up and hiding the truth that the third seal prophecy in Revelation is now being fulfilled.

Now we know that there is even more layers that YHWH revealed in this dream, as there is a double layer in the dream of Mike Bickle covering up and hiding secrets. There are two things that YHWH holds against Mike Bickle for hiding and covering up, preventing the public from knowing, two things which YHWH will be

exposing. One already shown in the dream is that the black horse of the third seal is the true prophecy that is happening and being fulfilled now, and the second is all of the unrepentant sin in Mike Bickle's life against all of the victims he abused. It is now exposed publicly that Mike Bickle was using this false black horse prophecy to cover up his own sins and evil he had done, but YHWH has now exposed Mike Bickle's false black horse prophecy and is exposing all of the sin and evil that Mike Bickle was trying to "keep under his hat," while at the same time "sit on it."

The main four elements in this dream are: 1. the shutting down of IHOP, 2. the exposing and fall of Mike Bickle, 3. the fall of Ukraine, and 4. the issue of the nine seats. Throughout the dream IHOP is slowly shutting down more and more, going darker and darker inside, with this one building that is representing all of IHOP across all of its buildings everywhere. Then there is the exposing of Mike Bickle and the things that he is keeping hidden, as YHWH is using the turquoise blue color to connect together the things that are being covered up and hidden, which he is exposing. This same color connects to the Ukrainian flag on the flag pole at the end of the dream. The Ukrainian flag lying crumpled on the ground while still connected to the flag pole is the historical, military symbol of a nation that has fallen and has been utterly defeated and destroyed in war by another nation. The symbol of surrender is the flag pole still standing upright in the ground, unshaken and unharmed, with the flag of the surrendering nation taken down from the pole and replaced by the conquering nation. The Ukrainian flag still attached to the top of the flag pole, but the flag pole fallen to the ground with the flag crumpled and a mess on the ground, as shown in the dream, is the symbol of a nation that refuses to surrender and is defeated militarily, never surrendering even up to the moment of their defeat. This is a sad symbol to see for the nation and people of Ukraine, but the symbol in the dream shows clearly Ukraine losing the war with Russia, and never surrendering to Russia as they go down to an eventual defeat.

The main thing that YHWH is revealing here is that the complete shutting down of IHOP, the exposing of Mike Bickle and his permanent removal from ministry, and the fall of Ukraine are all three events which YHWH has planned for this precise appointed time at this moment, and we do not have to worry at all, because all three are part of his will and plan. This is YHWH's appointed time for these things to happen, and as each of these three things happen he will be exposing the truth to everyone, which is currently being covered up and hidden, that most of the prophecies in Revelation are currently in process of fulfillment at the present time. And we can see the dream happening now in reality as IHOP is shutting down at the same time Mike Bickle is going down and Ukraine is falling down.

October 2023 (when YHWH began the shutting down of IHOP through the exposure of Mike Bickle) was the end of Ukraine's massively failed counteroffensive, which used up all of their resources that they needed to defend the nation with. It was the month that was the turning point of the Russia-Ukraine War, from the time when Ukraine was doing well and winning the war, to now as they are doing very poorly and looking at the very near possibility of losing the war entirely if they do not have the U.S. military aid they need. These events of Ukraine going down and IHOP going down are happening in the same time frame, because it is YHWH's appointed time that he had always planned, even before IHOP came into existence, to bring down Mike Bickle and shut down IHOP right now at this time. He is in total control of all of these things happening and there is no need to worry; they are part of his plan for this moment in history.

The final element of this dream is the “nine” seats. I did not count the seats in the dream; the number nine only comes from the young man who was shouting so angrily in the dream about the nine seats being evil. Since these seats have place settings for a meal in front of each one, they cannot represent seats of kings or rulers, nor can they represent the seats of judges or justices, so the number nine cannot be a reference to the United States Supreme Court. With the meal place settings in front of each seat, we know that sitting down to a meal together is the symbol of fellowship. The fact that the seats are arranged in a semi-circle looking outward, away from each other, shows a very deep fellowship where everyone has each other’s back and are looking out for one another. This is the kind of fellowship that is experienced between men or women who are in serious combat together. Shakespeare coined the phrase in Henry V that has been used for 400 years in the English speaking world to describe such a fellowship as a “band of brothers.” In 2 Samuel 1:26 David describes in his grieving for Jonathan this deep, band of brothers, type of fellowship he had with Jonathan, which many men who sacrificed their lives for one another in combat describe as being an even greater bond of fellowship than what they have experienced with their wives (even when they have had very close and good relationships with their wives). This is a deep fellowship that men and women and anyone can experience together with YHWH in his fellowship as we all go through hardships and suffering together, or even facing death together in persecution.

In the dream, the young people (or any people) who try to stay loyal with Mike Bickle say that this place of fellowship (this place of the oneness and unity of the true fellowship in John 17 of the bride), is now evil. I believe that the man sitting in the room all alone at the end of the dream is probably YHWH, all alone and waiting for his bride, his people, to come into his fellowship with him, the fellowship of oneness of John 17. My family there is representing the symbol of YHWH’s family, that he wants us all to be one family in fellowship together with one another and in fellowship with him. But now those who are staying loyal to Mike Bickle are saying that that oneness and fellowship of the family in John 17 is evil, and that fellowship together with YHWH himself is evil, causing the fellowship to be broken. And this part of the dream is showing what Mike Bickle has done, as he has now left the fellowship of the family of YHWH, and has broken the fellowship, causing many to turn away from YHWH and cut themselves off from him and from the fellowship, as shown with the flag pole with the chain ladder wrapped around it being removed by them to the ground.

It took me a while to understand what the number nine meant in the dream, and it was actually my family who figured it out. In Tolkien’s book, *The Lord of the Rings: The Fellowship of the Ring*, the Fellowship of the Ring starts out with nine members in the fellowship. This fellowship of nine is later broken up and scattered through death and betrayal and circumstances of battle beyond their control. These young adults at IHOP in the dream were calling the true fellowship of YHWH’s family an evil Fellowship of the Ring type of fellowship that needs to be broken up like the Fellowship of the Ring is broken up in Tolkien’s book. Mike Bickle has broken up the unity and fellowship of John 17, as he himself has now left the fellowship of the family of Messiah. And he has caused others staying loyal to him to stumble and fall into calling the unity and fellowship of John 17 an evil fellowship that needs to be broken apart.

Mike Bickle has broken the fellowship and led astray others to do the same as they follow him. The only way that he can continue to do ministry now is if he rejects the fellowship of YHWH’s family, and calls

YHWH's John 17 fellowship evil, in order to go off on his own to lead astray sheep to follow him as a shepherd who is outside of the fellowship, totally cut off from any relationship or communion with YHWH.

10. Dream 10: (2022) – In this dream I was in a room that was a fairly small room, with a theater type of stage for plays that was directly to the right of the door as entering into the room. It felt like a theater room that might be found in a school for children to put on plays and theater productions, not the type of room for professional theater plays with a paying audience. It was just a room in a building somewhere that had a small stage in it with a curtain for plays and theater productions. But instead of being set up for plays, on the stage were a lot of musical instruments laying around ready to be used for a band or musical performance. And there were a lot of young adults and young people around in the room and I knew that I was somehow at IHOP or with people who were from IHOP. No one was playing music on the stage, but they were walking around doing various things and talking in different groups.

There were lots of chairs stacked in a corner in order to make the floor of the room open with space for everyone to walk around on the empty floor, but I saw Mike Bickle toward the center of the room with a table or chairs put together for a makeshift table. The conversations that I heard everyone talking about in the room is that they were saying they had just removed two betrayers from IHOP and everyone was relieved that with the removal of these two betrayers they were going to be able to continue on and accomplish whatever they needed to accomplish with IHOP. In the dream I had no understanding of what they were talking about, and there was nothing in the conversations that was very specifically spoken about. At the end of the dream I had walked over to where Mike Bickle was and he had a map of North America on the table like structure in front of him, with a reading or desk lamp pointed with a beam of light on it. The room was fairly dark with only some outside light coming in through some very high windows that were up by the ceiling on one side of the room. They were very tall ceilings as in an old building of very old construction with the old, hardwood floors.

And on the map I noticed that Mike Bickle had drawn all sorts of circles in the place in the Pacific Ocean along the west Canada coastline, just under Alaska and in between Alaska and Washington State, with lots of messy arrows pointing inward toward these circles from lots of different directions. As I was looking at the map with all of the crazy arrows and circles on it, Mike Bickle was explaining that now that the betrayers were removed from IHOP that the plans of the End Times and plans of End Time prophecy, indicating the plans he had drawn on the map, would be able to happen now like they were supposed to. The young people in the dream all seemed very happy and relieved about what Mike Bickle was saying and what had happened. And that is when I woke up, not understanding anything at all that I had just seen and heard in the dream.

Dream 10: (Additional Explanatory and Understanding) – I had no understanding about this dream when I first had the dream, but now it is obvious with the truth coming out about Mike Bickle's manipulations. Now we know that he would call the whistleblowers and victims and advocates of the victims "betrayers" to intimidate them into silence and prevent the people at IHOP from believing the stories of the victims. There is a theater stage in the dream once again showing the theater drama and acting that Mike Bickle was creating with

a false or fictional narrative about two betrayers, leading astray the young adults and young people at IHOP with a false betrayer narrative. The fictional, theatrical narrative that he was creating for the people at IHOP in the dream was that they could rejoice about getting rid of these “betrayers” (who we have found out now are really whistleblowers who are not betrayers at all), so that they at IHOP can make the End Time prophecies happen and be fulfilled according to Mike Bickle’s plan and vision for how he wants the End Time prophecies to be fulfilled.

I had this dream within just a few weeks of Dana Coverstone’s “The Millstone Dream” (June 3, 2022) in which he saw a giant rope come down from the sky and wrap around the nation of America. Then he saw a giant millstone tied onto that rope and thrown into the Pacific Ocean just off the coast of California. The rope then began to choke the nation of America and in the end he saw America choked to death and die. Since I had watched the video about this dream on YouTube so recently, I immediately thought that the map in the dream that Mike Bickle had made all of the circles and arrows on to the Pacific Ocean off the coast of Canada might have some connection with Dana Coverstone’s millstone dream. There are two connections in Scripture with Dana Coverstone’s millstone dream, in Matthew 18:6 and Revelation 18:21. The Matthew 18:6 connection is that the nation of America has caused so many little ones to stumble that YHWH will be bringing judgment and death on the nation like having a millstone tied around the neck of the nation to throw it into the sea. There is also the messenger (angel) in Revelation 18:21 who throws a millstone into the sea as an example of the judgment that comes on the great city of Mystery Babel. This connection in Dana Coverstone’s dream shows that America has allowed Mystery Babel into its cities and let it permeate the nation, so that YHWH has to bring judgment on it as he judges Mystery Babel throughout the world during the time of his return.

The image shown in the dream was of Mike Bickle like an officer of an army with his dim light over his makeshift desk out in the field, looking at his secret battle plans to make the End Times prophecies be fulfilled his way. One possible explanation for this part of the dream with the map is that Mike Bickle is trying to stop YHWH’s judgments from coming on both America and on him personally, since in the dream it is clear that Mike Bickle is leading astray the young adults and young people, the children, like in Matthew 18:6 (causing them to stumble into his false narrative of “betrayers”). It appears that he is trying to move the location of where the millstone in Dana Coverstone’s dream is thrown into the ocean off the coast of California up north to off the coast of Canada, thereby stopping and removing any judgment on America and himself and moving it to another nation like Canada or to Alaska. This is one possible layer of meaning to the part of the map in the dream, and there may be other layers of understanding as well, which I have not seen that YHWH might reveal to others. For certain though the dream shows that Mike Bickle thinks that he has the power to actually make the End Time prophecies happen his way, according to a certain way that he thinks they should happen, and he is willing to use any kind of theatrical, fictional narrative to keep himself in power to make the prophecies happen according to his interpretation.

New, Recent Dream About IHOP and Mike Bickle

11. Dream 11: (March 30, 2024) – At the start of this dream I was in a building that I knew was the IHOP college or IHOP University. At the start of the dream I was thinking about how my Mom and I had just stayed the night somewhere there at the IHOP college/university place and we would be heading back home now that it was morning. I walked outside the front of the building and met my Mom at the car parked on the curb in the early morning as it was getting light out. Then I was saying something in the dream about wanting to check out the IHOP college and see about going to college here before leaving. In the dream I was someone looking for a serious college degree and had not been to college before, so I went back inside of the building to see if this was a good place to go to college at. This part of the building appeared to be an office administration area for the IHOP University. It was a large, square room with a hallway all around the square, but the hallways were very wide and filled with office desks, some empty and others with people busy working. I knew in the dream that these were office and secretary workers at the IHOP University doing administration type of work. There were doors leading to rooms and offices around the outside of the room, and hallways at the back of the square room that appeared to lead into the college itself. I was back and forth through this large, square room a lot in the dream.

At first I went to the back of this room, through the back hallway that was filled with lockers of many different sizes. I found a locker there that I knew was my temporary locker for while I had been staying there and found a little booklet inside of it that I took with me. I was going to look around the place and try to find someone who could help me learn more about the college. That is when I noticed Joel Richardson sitting by the locker area, busy working on something in his hands. It looked like some kind of paperwork, but I have no idea what it was he was actually working on. It seemed in the dream that he was working on something related to the IHOP University.

I went over to talk to Joel Richardson to explain to him my story of how I was wanting to get a degree and was considering IHOP as a place to possibly go to college. One of the issues in the dream I was talking with him about, and also thinking about through the dream, was that I was looking to get a really serious college degree. We began walking back through the hallway, through the large room, outside through the front door and sat outside in the sun talking for a while. Joel was trying to be nice to listen to me, but I could tell that his mind was elsewhere, very deep in thought with a somber face, thinking about other things. Eventually we walked back inside again, back down the same hallway again, and as we passed a particular desk in the hallway with a door leading to an office behind it he told me to go see this man about the IHOP University to learn more about the college. I noticed the man's name written on the door and on a nameplate on the desk in the hallway, but I forgot the name by the time I woke up. It looked like a Greek sounding name. I kept walking with him back to the hallway of lockers, thanking him for his help, and he went back to work on whatever he was doing by the lockers.

I went back through the hallway again to the door and saw the desk in front of the door (like a secretary's desk) empty with no one there. I thought that perhaps the man was not in, but then I saw the office door was open a crack and I pushed the door open. Inside the office I found a man I did not recognize standing by his

desk who looked like he was perhaps a teacher at the IHOP college. He was busy talking to two young men who looked like they were right out of high school, and I knew that they were students at IHOP. They were dressed in classic gang, street clothing like high school students in a gang. They both seemed very arrogant and full of themselves, and seemed like they were trouble makers.

The man who looked like a teacher eventually stopped talking for a moment to ask what I wanted, and I told him that Joel had told me to see him. I said that I was looking for information about the college there, and asked if he had any brochures or pamphlets or anything that he could tell me about the place. This teacher then looked very perplexed and was busy looking around trying to think of what he could give me to help me. He then grabbed a book and handed it to me. I was very surprised in the dream to see on the cover of the book a picture of Benny Hinn standing with his arms stretched up to the sky, but looking straight ahead. He appeared to be standing on top of the summit of a mountain, with the mist of clouds all around him in the sky, and across the bottom of the book was the name Benny Hinn written in large letters. There was a title at the top of the cover of the book that I did not pay attention to and I do not remember. The teacher told me as he handed me this book by Benny Hinn that it would explain about the college, but I was totally confused in the dream how a book written by Benny Hinn had anything to do with IHOP.

I then left the office and as I went back toward the lockers I saw the two college students that looked more like high school students whispering to each other while looking in my direction, and I was afraid that they might be planning on pranking me. I went around through the hallway past the lockers through the hallway on the other side of the room, and found the desk of an IHOP teacher there in the hallway. He had some Christian music turned up loud on a stereo radio, and was sitting in his desk very relaxed. We talked for a moment and he gave me the impression watching him and listening to him that he was like the classic high school or college coach character in shows and movies who doesn't care at all about academics, only caring that his team wins, except that this man at the desk was supposed to be a professor at the college.

I was heading back outside and I was very carefully observing things at the college and wondering to myself as I was investigating the college, now that Mike Bickle is gone has anything changed or is anything different now at the college. Is this a place that would be okay to go to now that Mike Bickle is no longer there? I then remembered the two college kids who had been whispering about me and I decided to quickly go back to the lockers once more to check my locker and make sure nothing was there, to make sure that I did not leave anything behind where those kids might get to it. I went back to the temporary locker I had been assigned and checked it once more, putting my hand inside all around in the locker and discovered that the locker was empty with nothing in it. Then I hurried back through the hallways to the front door and went outside. As I was just about to go through the doors, leaving the IHOP college building, I had a feeling of the strong sense of finality heading out the building that I would never be coming back here again.

When I got outside I found the car on the sidewalk to go back home, but my Mom was gone and I did not know where she went to. It was a bright, sunny day by this time and as I was looking around I saw that the IHOP University building was built into a strip mall that was right next to it, with shops all along the strip mall connected right into the IHOP University. I could see my Mom coming back from shopping at a store. Then I noticed my grandma, who died a few months ago, walking on the sidewalk next to the IHOP University

building, walking toward a side door to go into the building. In the dream I was startled and surprised, because I knew that she was dead and I was trying to figure out how she could be alive again. As my Mom walked by my grandma, she stopped suddenly to talk to her. That is when I saw that it was not really my grandma, as the woman took off her wig and I saw that it was really just a woman who was dressed up to look exactly like my grandma. Then my Mom was telling the lady that she did not need to dress up to look like my grandma (her mother) anymore. That is when I woke up.

Dream 11: (Additional Explanatory and Understanding) – This was the first dream I ever had about IHOP that Mike Bickle was not visible or prominent somewhere in the dream. I think that the main theme of the dream is clear that the IHOP University is not doing well and having an identity crisis with Mike Bickle gone, trying to use Benny Hinn books or anything they can find to try to replace Mike Bickle. There are a few key points of symbolism, one being with the woman at the end of the dream walking toward IHOP who was dressed up to look exactly like my grandma who has died. It is the symbol of IHOP University trying to make it look like they are still alive and functioning on the outside, but really the place is dead and they are only keeping up an outward appearance and act that it is still alive.

It was clear throughout the dream that everything inside of the IHOP University is in a mess and in chaos with no one in charge and no one who knows anything or is able to help with anything. I have no idea why Joel Richardson was in the dream or exactly what he represents, except for that he has been involved in IHOP for some time through the years, and I believe he has talked about maybe growing up on Mike Bickle's teachings and IHOP teachings possibly?

The cover of the book in the dream that was a book written by Benny Hinn has a lot of symbolic imagery to it. Benny Hinn on a mountain top surrounded by thick clouds with his arms in the air shows some of the deceptive theology in Christianity today. Getting to the top of the mountain is the symbol of getting to the top, into a position of leadership and power, through conquering and conquest, and the clouds are a symbol of reaching up to the heights to the heavens like the people of the city of Babel did in building a tower in Genesis 11. It is the worldly system of Babel that has become extreme in the modern world today of building towers and people making names for themselves that has infiltrated into primarily the churches of the western and technology world, but also spreading on every continent more and more. I do not know if the recent Benny Hinn controversy has anything to do with the dream, but recently Benny Hinn has been caught in video evidence still practicing and preaching the Prosperity Gospel that he had repented of and renounced a few years ago. Unfortunately in some videos he is even still trying to spiritually manipulate some people out of their money. There might be a connection there with IHOP University and Mike Bickle in the dream. The Benny Hinn book also shows an attempt at rebranding and restarting IHOP University (maybe IHOP in general) under a new name without Mike Bickle involved, but the dream shows that in reality nothing has really changed on the inside of the organization.

Most of the rest of the things in the dream are fairly obvious as YHWH is currently exposing IHOP University and helping everyone understand why he wants it shut down, because it has not changed even though Mike Bickle is gone. It is already dead and finished inside, and putting on an act outwardly on the outside that it is still alive will not help anything to bring it back to life again from the dead.
